Application and Maintenance of French Press On Nails

Applying French press on nails at home is a straightforward process that can be completed in just a few minutes. Begin by ensuring your natural nails are clean, dry, and free from polish or oils. Gently buff the surface of your nails to create a smoother surface for adhesion. Next, select the appropriately sized press-on nails and peel off the backing to expose the adhesive. Align the nail with your cuticle, and press down firmly for a few seconds to secure it in place. Repeat this process for each nail. To extend the wear time of your press-on nails, avoid prolonged exposure to water and use gloves when cleaning. If you notice any lifting, you can apply a small amount of nail glue to reattach them.
