Application and Care Tips

Applying long almond-shaped press on nails is a straightforward process, but following the right steps will help ensure a professional-looking result. Begin by preparing your natural nails; clean them thoroughly and push back your cuticles. It's essential to ensure your nails are dry and free of any oils. Next, select the press on nails that fit each finger and apply a suitable adhesive. Carefully position each nail and press down firmly for a few seconds to secure them in place. Once applied, take care of your press on nails by avoiding harsh chemicals and excessive water exposure to prolong their wear.
