Freestanding pergolas are versatile structures that can be placed anywhere in your yard, independent of your home. This type is perfect for larger outdoor spaces where you want to create a designated area for relaxation or entertainment. I remember a friend who installed a stunning freestanding pergola in her garden, adorned with climbing vines and fairy lights. The result was a picturesque retreat that became the centerpiece for garden parties and family gatherings. The

flexibility of placement allows homeowners to design their outdoor areas creatively, providing ample opportunities for customization and personal touches.

Attached Pergolas

Attached pergolas are designed to extend from an existing structure, such as your home, creating a seamless transition between indoor and outdoor living. They provide shade and protection while enhancing the overall aesthetic of your home. When my neighbors added an attached pergola to their patio, it instantly transformed their outdoor space into an inviting area for entertaining.
