Maintenance Tips for Longevity

To keep your luxury aluminum pergola looking pristine, regular maintenance is key. Start with simple cleaning: a gentle wash with mild soap and water can effectively remove dirt and debris. It's advisable to clean your pergola at least twice a year, particularly before and after the harsher weather seasons. Protecting your pergola from the elements is also crucial; consider applying a protective coating that guards against UV rays and moisture. Regular inspections are essential as well; check for any signs of wear or damage, such as loose fittings or corrosion, and address these issues promptly to prevent further deterioration.
