## Our Services

### Orthopedic Surgery

Sick of typing "best spine orthopedic doctor near me" into your search engine? We don't blame you! Researching to find the best spine doctor can be tiresome. Here at ACME Spine and Orthopedics we only offer our patients superior treatment. Dr. Barry E. Schapiro specializes in arthroscopic surgery of the knee, shoulder, hip, ankle, and wrist. He also performs total joint replacement surgeries. We pride ourselves on being the best spine and orthopedic specialists in Florida and are ready to help YOU live your best life.

### Interventional Pain Management

Millions of people live with chronic pain due to a variety of reasons, and it often takes a team of medical providers to help figure out short and long-term plans to relieve and handle this type of pain. ACME Spine and Orthopedics has a highly experienced team of the best back surgeons, spine surgeons, and interventional pain medication doctors around. We regularly administer spinal epidural injections, PRP and stem cell injections, as well as conduct cervical, lumbar, and thoracic facet or medial branch blocks, among other procedures.

### Minimally Invasive Spine Surgery

Here at ACME Spine & Orthopedics, we treat a wide variety of neurological diseases. If you are looking for the best spine and orthopedic center, you've come to the right place. Since 2011, we have been assisting Floridians in achieving optimal health and wellness. Our spine and orthopedic center can perform minimally invasive lumbar, thoracic and cervical microdiscectomies for herniated disks, sacroiliac fusions, artificial disk replacements for lumbar and cervical spine for herniated disks and much more.

### Regeneten Bioinductive Implant

Suffering from rotator cuff injuries? Then, the ideal treatment for you is the Regeneten Bioinductive implant that helps stimulate the natural healing process in the body. It is an effective approach, especially in cases where you need to promote tissue growth. Moreover, it also helps in strengthening the rotator cuff. It is designed to be minimally invasive and has a short recovery time. This cutting-edge technology can ensure you are free from pain, heal from your injuries, and enjoy an active lifestyle. To top that, you will receive the highest level of care at our facility to make the recovery process smoother for you.

### Injections For Pain Relief

At ACME Orthopedics, we specialize in advanced, non-surgical solutions for pain relief. Our team offers a full range of regenerative injection therapies, including PRP (Platelet-Rich Plasma) injections, stem cell injections, and bone marrow aspirate injections. These innovative treatments harness your body's natural healing abilities to reduce pain, promote tissue repair, and support long-term recovery—all without the need for invasive surgery.
