OUR HERITAGE

From Forest to Foundation

Three Generations

Over 30 years of wood crafting expertise passed down through family tradition and refined by modern innovation.

Founded in 1991

Born in Romania with a singular mission: to redefine what nursery furniture could be — beautiful, lasting, and meaningful.

A Living Philosophy

We believe wood is a living, breathing material that shapes the soul of a home — not just fills a room.

CRAFTSMANSHIP

The Art of Intentional Manufacturing

Proprietary Production

Full control over every ingredient and process — from raw timber to finished piece — ensuring uncompromising quality at every step.

Kiln-Dried Beechwood

Precision-calibrated to 8% moisture content for maximum structural integrity and long-term durability in any climate.

Artisan-Led Assembly

Expert hands guide advanced technology, marrying traditional craftsmanship with modern manufacturing precision.

SAFETY

Safety Without Compromise

Your family's health is non-negotiable. Every Romina piece undergoes the most rigorous safety testing in the industry.

10K+

Chemicals Tested

GREENGUARD Gold Certified — screened for over 10,000 harmful chemicals and 350+ VOCs.

0

Lead & Phthalates

Zero lead, zero phthalates, and fully non-toxic finishes — exceeding all CPSC standards.

100%

Independent Verified

Third-party certified for the most vulnerable members of your family — newborns and beyond.

The Evolution of the Nursery

Rejecting Disposable Furniture

We refuse to build pieces that last only two years. Romina furniture is engineered to evolve — from a newborn's first night to a teenager's personal sanctuary.

→ Adult-Sized Dressers

Full-scale engineering with German hydraulic soft-close drawer systems built to last decades.

→ Design Versatility

From newborn cribs to teenage bedroom centerpieces — one collection, a lifetime of use.

FEATURED COLLECTION

The New York Collection

A case study in elegance — where mid-century modern aesthetics meet heirloom-level durability.

Solid Beechwood

Chosen for its exceptional density, natural grain, and sustainable harvest rates.

Heirloom Durability

Built to be passed down — not replaced. Every joint, finish, and hardware choice reflects this commitment.

Forest Commitment

Five saplings planted for every tree harvested — investing in forests for future generations.

Performance Through Every Life Stage

The **Lifetime Crib** is a 5-in-1 convertible system engineered to grow with your child — from infant sleep to college dorm readiness. Robust hardware is tested for over **80,000 cycles**, ensuring resilience through midnight feedings, toddler gymnastics, and adolescent growth spurts. Structural integrity is never compromised at any stage.

OUR PROMISE

A Legacy for Your Growing Family

Romina Furniture is more than a purchase — it's an investment in the intimate, inviting spaces where life's biggest milestones unfold.

Build Once

We craft furniture designed to last a lifetime — so you never have to choose again.

Live Fully

Every piece creates the backdrop for memories that matter most.

Invest Today

The foundation of your home begins with the right furniture. Explore the Romina collection.
